

ADEMCO No. 5802CP
BELT CLIP
TRANSMITTER

INSTALLATION INSTRUCTIONS

The Ademco 5802CP is a belt clip style Emergency wireless transmitter that may be worn on a belt or carried in a pocket or purse. Pressing the button on the transmitter (for at least one second) will send an alarm signal to the control receiver. The 5802CP is intended for use only with wireless alarm systems that support 5800 series devices.

The control receiver's response to the 5802CP signal can be set for either 24-hour audible alarm or 24-hour silent alarm by appropriate programming of the control receiver.

The 5802CP is powered by a non-replaceable Lithium battery designed to provide up to 4 or more years of life. The entire 5802CP should be replaced when a low battery is indicated by the control unit.

Programming the Serial Number:

The 5802CP has a unique serial number permanently assigned during manufacture.

The control system is required to "learn" the transmitter's serial number during installation of the system. All 5802CP transmitters should be programmed as "BR" type units (i.e., unsupervised "Button RF").

Note: During the "learning" procedure, two transmissions must be sent (by pressing the button). Allow at least 8 seconds between transmissions.

See the control unit's Installation Instructions for further details regarding possible zone responses and programming.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) must accept any interference received, including interference that may cause undesired operation.

FCC ID: CFS8DL5802CP

SPECIFICATIONS

Unit Dimensions:

2-5/8" (67mm) x 1-1/2" (38mm) x 1" (25.4mm)

LED: Lights when unit transmits.

REFER TO THE INSTALLATION INSTRUCTIONS FOR THE RECEIVER/CONTROL WITH WHICH THIS DEVICE IS USED FOR WARRANTY INFORMATION, AND FOR DETAILS REGARDING THE LIMITATIONS OF THE ENTIRE ALARM SYSTEM.
