you the ease of one-
button operation
with the convenience
of remote system
control.*

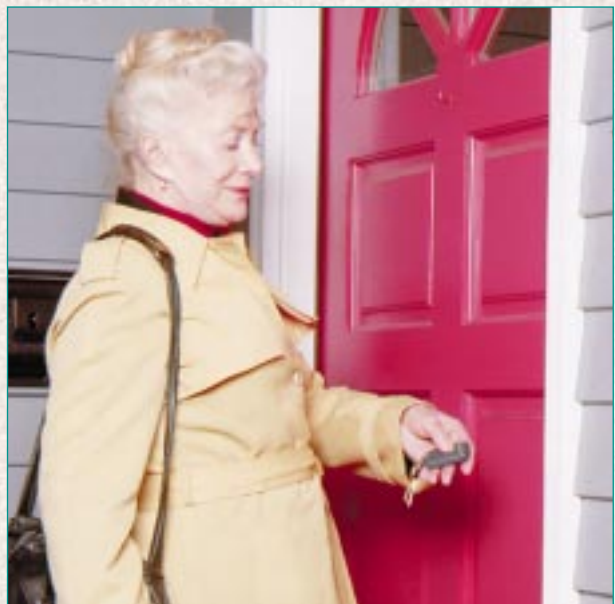

*Protecting what
You value most.*

ADEMCO
GROUP

*W*ireless keyfob
offers the ultimate in
convenience and control.

The features of a control keypad; the convenience of an auto alarm keyfob. ADEMCO builds them both into a sleek portable device that's so advanced, it's downright simple!

Our wireless keyfob is designed to make your busy life easy. With the press of a button, you can control

your home's security system, operate appliances — even turn on the lights while in or around your home. There are no codes to remember and no complicated operating procedures. System-wide control has never been easier or more convenient than it is today with our wireless remote control keyfob.

Wireless Remote- Control Keyfob

Since our founding nearly 70 years ago, the ADEMCO Group has helped shape the security industry. As the world's largest designer and manufacturer of electronic security systems, ADEMCO produces over 1,500 different products. We protect 15 million homes, businesses, museums and government buildings. With ADEMCO, you've selected the finest security solutions in the world to protect your home.

Designed for your ease and convenience

- Four fully programmable buttons mean simple operation — with no codes to remember
- Controls security system
- Operates lights and appliances remotely

Built to meet the highest standards in the industry

This product is ISO-9001 certified, an international standard of quality. In addition, the wireless remote control keyfob meets ADEMCO's rigorous standards of proven performance, reliability and cost-effectiveness.
