

## Two-Way Wireless Remote

*This remote fits  
easily in your pocket  
or clips conveniently  
to your car visor.*

*Protecting what  
You value most.*

**ADEMCO  
GROUP**

**T**wo-way remote  
confirms the status of  
your system quickly  
and easily.

The flexible, pocket-sized bi-directional remote has two-way feedback, letting you check on the status of your security system with the touch of a button. Visual and audible cues confirm the status of your system and disarm it before you enter your home.

## Security that is simple & easy

There are no codes to remember, no complicated operating procedures. With convenient home automation features, you can even turn lights and appliances on or off when entering or leaving home. In a purse, on a belt or in the car, this compact remote is designed to go right along with you.

## Two-Way Wireless Remote

Since our founding nearly 70 years ago, the ADEMCO Group has helped shape the security industry. As the world's largest designer and manufacturer of electronic security systems, ADEMCO produces over 1,500 different products. We protect 15 million homes, businesses, museums and government buildings. With ADEMCO, you've selected the finest security solutions in the world to protect your home.

### Designed for your convenience
