

Technology you can trust. Benefits you can see.

It's never been so convenient—or so cost-effective—to protect your home with glassbreak and shock detection. ADEMCO sensors are engineered with reliable wireless technology that allows for easy installation in all types of buildings.

Wireless Shock Sensor

ADEMCO's advanced shock sensors mount easily on moldings or walls — providing uncompromising detection without complicated wiring.

Offering you uncompromising broken glass detection

Our glassbreak sensors install easily on moldings and walls, with no invasive construction or complicated wiring, providing unsurpassed detection for your windows. In fact, they're so compact, they're practically undetectable in your home.

ADEMCO
GROUP

Glassbreak Detectors

Advanced wireless technology makes unsightly window-mount sensors a thing of the past.

Since our founding nearly 70 years ago, the ADEMCO Group has helped shape the security industry. As the world's largest designer and manufacturer of electronic security systems, ADEMCO produces over 1,500 different products. We protect 15 million homes, businesses, museums and government buildings. With ADEMCO, you've selected the finest security solutions in the world to protect your home.

Designed for your family's safety

- Mounts quickly and easily on moldings and walls
- Requires no invasive or complicated wiring
- Provides uncompromised protection
- Offers powerful wireless security technology

Built to meet the highest standards in the industry

This product is ISO-9001 certified, an international standard of quality. In addition, the shock sensor and glassbreak detector meet ADEMCO's rigorous standards of proven performance, reliability and cost-effectiveness.
