# NAPCO AccessPro TCP/IP Port Information Tech Note

WI1605 5/07

The information in this document applies to:

- AccessPro version 3.0 and later.

## **Question:**

Which of the TCP/IP ports are used by the AccessPro application?

## **Answer:**

The AccessPro application uses several ports. The port numbers and their usage are listed below.

- 9000: This port is used by NAXDataServer for broadcasting information to the workstations.
- 1433: This port is used by MSDE.
- 3001: This port is used by AccessPro to communicate with the panels through E-Net devices.
